One-Off Services

Custom builds and content transformation services.

Course Transformation

\$8,000 – \$12,000 per unit

Your PDF learner guide rebuilt as an interactive HTML course with 3D equipment viewers, video walkthroughs, knowledge checks, animated diagrams, and SCORM export. 2-3 day delivery per unit.

FIRST UNIT FREE with any platform plan.

Custom Unity Simulation

\$5,000 – \$15,000 per sim

Bespoke Unity WebGL simulation built to your specific equipment and procedures. Crane cabins, pre-start inspections, site inductions – your gear, your site. 2 revision rounds included. SCORM export available.

Interactive Calculators

\$1,500 – \$3,000 per set

Sling angle calculators, weight estimation tools, crane capacity calculators – all interactive, all branded, all embeddable. Compliant with AS/NZS standards.

Course Transformation – What You Get

A typical 200-page PDF learner guide becomes:

- ✓ 10+ interactive HTML modules with responsive design
- ✓ 3D equipment viewers (orbit, zoom, annotations)
- ✓ Embedded video walkthroughs with TTS narration
- ✓ Interactive calculators mapped to unit knowledge evidence
- ✓ Auto-marked knowledge checks after each module
- ✓ Full unit of competency mapping (elements, PCs, KE, PE)
- ✓ 100% ASQA-auditable content
- ✓ SCORM 1.2/2004 export for embedding in other LMS platforms

Comparable engagement with an eLearning agency: \$50,000-150,000 per unit.

Competitor Comparison

How we compare to the Australian VET technology market.

Platform	Monthly	AI marking + tutors	3D Sims	AVETMISS	Notes
High Risk Interactive	\$449-1,249	✓	✓	✓	All-in-one. AI + sims + compliance + CRM included.
aXcelerate	\$500-800+	✗	✗	✓	Dominant. Turbo plan only. Bolt-ons push to \$14-22K/yr.
Wisenet	\$290-700	✗	✗	✓	SMS only, no LMS. 3 tiers.
VETtrak	\$250-667	✗	✗	✓	SMS only. Named-user licensing.
Cloud Assess	\$50-600	Partial	✗	Partial	Assessment-focused (incl. AI-assisted marking). Often used with aXcelerate.
ReadyTech	\$400-1,200	✗	✗	✓	Enterprise-focused. Quote-only.
Moodle (Managed)	\$200-500	✗	✗	✗	Open source. Real cost \$5-15K/yr with support.
TalentLMS	\$149-699	✗	✗	✗	Generic LMS. No AU VET features.

Compliance Software Competitors (ComplianceHQ benchmarks)

Platform	Price	Notes
SafetyCulture	\$24-49/user/month	50 workers = \$1,200-2,450/mo. Inspections/checklists focus; training sold via separate SC Training product.
Hammertech	\$500-1,500/project/month	Construction-specific. Worker inductions + compliance.
Assignar	\$500-1,667/month	\$30-60/user/mo. Workforce management + compliance.
ComplianceHQ (Ours)	\$399-999/month (flat)	Flat rate, not per-user. Integrates directly with training delivery.

Competitor pricing and feature information compiled from publicly available sources as at June 2026. Features and pricing change frequently – confirm current details with each vendor. Ticks/crosses reflect what is included in each platform's core pricing at that date, not every product the vendor sells.

Why Switch? — vs aXcelerate Stack

Typical HRW RTO currently paying for aXcelerate + Cloud Assess + CRM + WordPress plugin:

	aXcelerate + Add-Ons	RTOWebLMS Foundation
Year 1 cost	\$17,100+	\$10,388
Online enrolments	+\$4,900 setup + \$900/yr	Included
Practical assessments	+\$3,000/yr (Cloud Assess)	Included
CRM + email sequences	+\$1,200/yr (HubSpot)	Included
AI marking + tutors	Not available	Included
3D simulations	Not available	Included
Adaptive learning	Not available	Included
Setup fee	\$4,000-6,000	\$5,000

Save 40% with 10x the features.

No bolt-ons. No WordPress plugins. No third-party subscriptions. One platform, one invoice, one support team.

What Sets HRI Apart:

✓ 7 Unity WebGL Simulations

Crane, forklift, boomlift, hand signals, whistle signals, radio comms, calculations. We're not aware of another Australian RTO LMS with embedded 3D training simulations.

✓ 7 AI Tutors (SkillMate)

Grounded to Australian Standards (AS 2550, AS 1418, AS 3775). Not generic ChatGPT — purpose-built for HRW training with zero-hallucination rules.

✓ Adaptive Learning Engine

Diagnostic pre-assessment identifies knowledge gaps. System generates personalised study plans and practice quizzes at the right difficulty level.

✓ Course Transformation Pipeline

Turn 200-page PDF learner guides into interactive 3D courses in 2-3 days — built on our in-house content pipeline.

✓ 67+ Interactive Simulations

Sling angle calculators, weight estimation tools, equipment viewers, safety scenarios — all built, not stock content.
